REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 34 and 46-77 are pending.

The rejection under 35 USC 112, 1st paragraph, has been dropped as the claims have been canceled.

The closest prior art was USP 6,780,879 B2 for which a terminal disclaimer has been filed and accepted.

The novelty resides in the carbonate group, -O(CO)O, attached as variable R7 and group -OC(O)-CH(OH)-C(NHR5)(X3) attached at 13-position. The prior art neither teaches nor suggests the claimed taxane derivatives or their use. Taxane compounds are known to be useful to treat several types of tumors such as breast, non-small cell lung. Thus the claimed compounds would be expected to have the same utility as structurally similar compounds are expected to have similar properties.

The compounds differ from those of copending application 10/720615 in that the carbonate is attached as R10 while in the present application, 10/743581, the carbonate is attached as R7. Motivation is lacking to move the carbonate from one position to the other. Claims 34,46-77 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
